NEW YORK, August 3, 1842. "Messrs. Sands-Gentlemen: Under a feeling ense of gratitude inherent to us all when suddenly lieved from suffering and disease, I now, as an act justice due to you, and with a view of relieving e afflicted, make known to the world the inestitable benefit I have received from the use of your presaparilla. In the year 1832 I sailed from Engind in a vessel bound for Quebec, and while on the assage first discovered the disease which after roved to be a sore affliction; and truly I can say, here was no soundness in me.' From the time first entioned down until the present, a period of more an ten years, I have suffered all that human nare was capable of bearing. I have been under he care of the most distinguished physicians both this country and in England, visited Bath, Chelpham, Bristol and Gloucester, tried various spefics, among others a large quantity of Swaim's anacea, used sulphur baths, &c. As a last resort was induced to wrap myself in a tar ointment, seep myself secluded, shunned by all, myself also hunning. I was induced to believe my case a

opeless one. In August last, by the advice of friends, I went the New York City Hospital, but was there told hat my case was incurable. The disease now en-eloped my whole body, rendering me almost helpss; the skin thickened and cracked, and blood and latter ran, and life itself became almost a burden. few weeks since I was induced to use your Sarsparilla by hearing it so highly recommended hav. ng spent nearly \$3,000 without obtaining but little plief. After using it a short time, I found myself etter, and now, by using six or eight bottles, costg me less than ten dollars, I am well. MISCELLANEOUS.

From the Albany Evening Journal. Letter from Mr. Weed. [CONCLUDED.]

STEAMER COMMODORE, River Clyde, 9 P. M. We took passage in this fine, staunch and beautifully finished and furnished Steam Packet, from Beliast to Greenock, in Scotland. The distance is 86 miles. The cabin fare is half a sovereign The fare on deck is two shillings sterling Four o'clock is the hour fixed for leaving Belfast, but when we arrived, a few minutes before four, the quay was choaked up with cars, trunks, crates, hampers, men, women and children; the crates, and hampers filled with pigs, poultry and vegetables going to Paisley and Glasgow, to be eaten; and the men, women and the lowly that workman went gathering up children going first to Scotland to the hay and the property of the control of the what the man and the control of the what the second of the control of the what the control of th oat, and then to England for the wheat harvest After a scene of great noise, confusion and labor from four till after seven o'clock, the vegetables, and the animals, biped and quadruped, were stowed away either under hatches or upon deciwhen we took our departure from Belfast. The channel, for several miles, is narrow and intricate, put our vessel dodged around, by short curves and abrupt angles, among the buoys and beacons with admirable obedience to her helm, and in an hour we were far enough out to have abundance of sea room, with the Irish coast in

sight on our left, while the shores of Scotia were dunly seen on our right.

I went forward, after we got under way, among the deck passengers, some 250 in number, two thirds of whom were as wild, ragged and desperate a set of tellows as I had ever seen. Many of them were Connaugh lads, who, from economy in words, or some other cause, are in the habit of using scythes, hook, or whatever argument, of this description, they may happen to have in their hands, for the purpose of convincing those Cast Iron Reaction Water Wheels; Balance with whom they differ. But fortunately there were no differences here. All was hilarity.-Grist Mill Spindles; and an extensive assortment of After a few songs, a dance was called, when instead of a fiddler, a fifer was procured for the occasion. A ring was made. The insides were required to sit, those next to kneel, and the outer strata were allowed to stand up. This gave all a chance. The dancing (Irish jigs) commenced with great spirit and with more grace than I expected to see in dut and rags. The parties "leading off" continued to dance more

hour. On board the steamer I met with a most extraordinary man-in many respects the most extraordinary of any living individual. That there are other men who have lost both arms and both legs by amputation, I doubt not, but that those others walk about erectly, and are able to feed themselves, and even to write, I much doubt -This individual is Neil Dewar, a native of Argyleshire, in Scotland, who was shipwrecked on the coast of Labrador, in the schooner Rebecca, of Quebec, in 1817. The survivors, (the captain, mate, and four of the crew,) found themselves upon the inhospitable shore of Labrador in the month of November, with a cask of cherry brandy their only substance. The mate and one of the crew perished with cold and hunger. The captain died soon afterward. The subject of this paragraph was so badly wounded in the legs as to be unable to accompany his companions in an attempt to find assistance. These companions returned towards night the following day with information that they had found an Indian hut, to which they with difficulty assisted him. Here they found a hunter with a white man and two Indians in his employment. The hunter did all in his power to relieve the sufferers, but it soon became evident that nothing but amputation would save the lives of Dewar and Donaldson, one of his companions. The latter died from loss of blood during the operation. The County, against manufacturing or vending any of the so called ESPY'S PATENT CONICAL VENperformed by the white man, assisted by the Inpublic also against purchasing of any other person, dians. His arms soon healed, but his legs con-excepting the subscriber or NATHANIEL JOHN-tinued in a deplorable state till spring, when his kind host had him conveyed to the coast on a sledge, and in Sehtember he obtained a passage in the schooner to Quebec, at which place he was received into the Hospital of St. Roque and very kindly attended by the nuns. But here it was found necessary to recomputate both his legs ! In 1819 he obtained a passage home to Scotland, but on his passage his wounds broke out afresh, and while in the Glasgow Infirmary a third amputation of both his legs was performed by sur THE annual course of lectures before this Insti-tution will commence on TUESDAY, the geons Corkindale and Cumin! The wounds soon healed, and for nearly twenty years he has enjoyed excellent health. By the aid of cork legs and the assistance of a cane jointed to a cork lowing named gentlemen, that they will deliver arm, he walks without difficulty. He takes his meals by jointing a fork into his left arm, and by "unshipping (as be expressed it) the cane and shipping a knike" into the joint of the right stump.

THE PRINTER. "The printer, in his folio, heraldeth the world.-Now come tidings of weddings, maskings, mummeries, entertainments, jubilees, wars, fires, inundations, thefts, murders, massacres, meteors, comets, spectrums, prodigies, shipwrecks, piracies, sea-fights, law-suits, pleas, proclamations, embassies, trophies, triumphs, revels, sports, plays; then again, as in a new-shitted scene, treasons, cheating-tricks, robberies, enormous villainies of all kinds, funerals, burials, new discoveries, expeditions; now comical then tragical matters. To-day we hear of new offices created, to-morrow of great men deposed, and then again of fresh honors conferred; one is let loose, another imprisoned; one purchaseth, another breaketh; he thrives, his neighbor turneth bankrupt; now plenty, then again dearth and famine; one runs, another rides, wrangles laughs, weeps, and so forth. Thus do we daily hear such like, both public and private news."

Like all essays of that sort, it wis made to sparkle all over with points and epi grammatic hits, and punge it antithes's and brilliant illustration - Hance it cannot be reported save by itself, and I think I may as well say, for if I do not, some one else will dont before me-as things are now going on-that the favorers of the transcendental views are getting to be pretty decided munnerists in their style, and hence it is somewhat doubtful whether their rhetoric will not before long nullify their log c. They are much like each other, and each a little too much like himselt. We are getting to be able to calculate heforehand what they are going to say,-only we do not magine how beautifully they will say it

Certainly there were many things in this discourse, which so came home to every one's comm in sense and natural feeling, as to secure universal admiration and remembrance. His very fine exhortation against degmatism, (those who heard will understand why I am tempted to parts of the system, each separately by itself, and wr.te-dogism.) his forcible statement of the of the natural colors, so that the whole man can uselessness of controversy, and the sound adwice, that whoever has any thing to say, should the facility with which a child can erect and desay it, as his own, for what it may be worth, and forego the mere contradiction of others' views, am sure will be remembered, with effect.

In the evening there was a delightful tea party in the Commons' Hall where a large number of men and women had a cheerful and pleasant interview, cakes and coffee, wit and eloquence abounded Addresses were made by Charles Divers, Esq of Portland, Rev Mr Baldwin of New Haven, Governor Kent, President Woods

On Wednesday the regular order of the College exercises were attended. There was a very large audience who listened to the performances of the graduates with evident satisfaction.

Forty three young men were admitted to the degree of Bachelor of Arts,-twenty-six to that the advertisement in another column. of Master of Arts, and seven to the degree of Doctor of Medicine.

Of honorary degrees, of which none have been conterred at this college since 1839, there were the following-The degree of Doctor of Medione on Benjamin Page of Hallowell,—of Master of Arts on Joseph McKeen Esq of Brunswick, and Eliakim P. Scainmon, an Assistant Professor at West Point,-of Dictor of Divinity on Prot Charles B Haddock of Dartmouth College, and of Doctor of Laws on Chief Justice Whitman of the Supreme Court of this State, William G. Goddard, Esq of Providence R 1 and the Hon Nathan Weston of Augusta.

There were added to the Board of Overseers, Seth Storer Esq of Scarborough, and Messrs
Joseph Libby and W P Fessenden of Portland

On Wednesday evening was held the public meeting of the Athensean Society. The Ora-Smith, formerly of Portland, now of Amesbury Mass. The topics of the discourse were somewhat identical with those treated by Mr Hedge. They were discussed by Mr Sinith, profoundly, but in a style full of entertainment

On the whole, the Commencement was most gratifying. Many things indicate a good will on the part of the friends of the College, and there is much reason to hope that its graduates will rally around it for their own happiness, and for the promotion of its important public design.

Dr. Cutter's Lectures.

At the close of Dr Cutter's course of lectures on Austoiny and Physiology on Wednesday evening last, the andience was called to order by A G Jewett, Esq , and thereupon on motion of of the so-called Conservitism of the present day | Rev Dr Pond, Dr Josiah Dean was chosen chairman, after appropriate remarks by A. G Jewett, D T Jewett, J. E. Littlefield, A Drummond, P B Mills, A R Hallowell, Esqs rights and privileges of philosophy in general, and Dr Pond, and on motion of Dr Pond, it was unanimously voted Dr. Cutter be requested to repeat his course of lectures in this place as soon as his convenence will admit. Whereupon Dr Cutter expressed his willingness to comply with the wishes of the audience, and gave notice that he would commence repeating the lectures at the City Hall on Monday evening JOSIAH DEAN, Chamman,

The following description of the Model or Manikin used by Dr. Cutter in illustrating the subject of his lectures, is from the Worcester Waterfall, and is inserted at the request of Dr Dean, and conveys a very good idea of this ingemous sk lifull piece of mechanism.

The Manikin used by Dr. Cutter illustrative of the lectures before the Mechanics' Association in the upper Town Hall, is not a little man, as the name implies, but a very sizeable gentleman, standing six feet in his shoes, (if he has any) and well proportioned. It is the exact resemblance of a man with the skin and all the adipose or fatty matter removed. It shows all the bones, muscles, tendons, nerves, arteries, veins, heart, lungs, stomach, liver and in fine, all the internal be built up and taken down by piece-meal, with molish a cob-house.

LORRAINE'S PILLS, OR VEGETABLE UNIVERSAL MEDICINE CURATIVE

French College of Health, in Paris. THE following letter was received yesterday by mail from Salem. It gives another evidence of the great success of Lorraine's Vegetable Univer

Sin-I have been for many years a sufferer from the ravages of Scrofula and Cancerous Humors, which at last seated on the vitals, and exhibited all the threatening symptoms of consumption. The general inutility of all remedies awakened my enquiries as to the thousand different methods of cure, to most of which I had recourse without receiving benefit. I accidentally noticed a remarkable cure by Lorraine's Pills, and was induced to give them a trial. I sent to Boston and got a box. By the use of them I found immediate relief and was soon re stored to a perfect state of health. J. E. NEWHALL.

Salem, 21st May, 1841.

The following letter from J. B. Light, Esq. is wor thy of notice.

SIR-It ook one of Lorraine's Vegetable Pills last evening for a pain in my head, that had effected me for several days, occasioned by taking cold. I soon felt very calm, and quiet, and a state of general repose came on which had great charms, and I enjoy ed one of the most comfortable and refreshing nights rest that I ever did in my life. I rose in the morning in my usual state of health, and believe it is my duty to recommend this medicine. J. B. LIGHT.

Yours truly, Nov. 20th, 1841.

[From Boston Daily Mail.] Somehody wisely says, that a cap loaded with ewels and flowers will not cure the headache, nor rold chains prevent the consumption. Lorraine's Vegetable Pills have done both.

Sin-I have been effectually cured of a severe nezdache by the use of Lorraine's Pills.
SARAH NOYES

SIR-My daughter had all the threatening symp tems of a Consumption, such as cough, pain in the side, &c., together with general debility, but has had her health restored by Lorraine's Pills Rev. J. KNIGHT.

New York City, Nov. 1, 1841.

Family Medicine.

SIR-I have used Lorraine's Pills in my family as a family medicine, and I would most earnestly rec ommend them to all persons, as the best medicine that can be procured. I would not be without them -they operate mildly, and never fail to give immediate relief. Until I used these Pills I was obliged to pay from 2rom 25 to \$100 per year for medicines and physicians, since then I have had no other doctor than Dr. Lorraine's Pilis. JAMES NEAL. Hartford, Conn. July 8.

Lame Back.

Sarah Snow was cured of a lame back in one day when she had been unable to dress oerself alone for two weeks. Susan Jones of Boston, cured in 36 hours of lame

back and side of three weeks standing.

Sick Headache.

Mrs. Bird of Providence says, that 'Lorraine's Pills have proved a real bleesing to her. It has surpassed any thing that has been brought to the public notice. I have been cured of a sick headache that had afflicted me for years, by the use of Lorraine's

THE CONDITION.

The condition upon which nature gives health to man, is a watchful care to keep his stomach and bowels free from morbid and unhealthy accomulations. Lorraine's Pills admirably effect this, because they cleanse the bowels and purify the blood. The human body is always healthy when the ties for acquiring a sound, practical education. bowels are regular, the blood circulates freely, and

disease invariably commences when obstructions take place in the bowels. The extraordinary virtues of Lorraine's Pil.s depends upon extracts of over 50 different vegetables,

all so admirably combined as to purify, hourish and invigorate the human system. For sale by G. W. HOLDEN, Bangor.

DR. FELIX GOURAUD'S POUDRES SUBTILES.

HAIRY excrescences, if not the greatest are perhaps the most common drawbacks to personal appearance. The skin may possess Parian purity of color, it may be heightened by health, and AND OTHER CUTANEOUS DISORDERS!

I purity of color, it may be heightened by health, and I began the use of the Tonic with little or no faith rich with the smoothness of youth; but if these at that it would ever be successful on my head, though I tractions are obscured by an overgrowth of hair, felt entire confidence in your statements of what it had the advantages they would otherwise yield to their done for others; and I was as much surprised as dehighly efficient in removing such disfigurement.— When applied cold, this preparation is used by some, in lieu of a razor, for removing the beard, ever, very fine, though quite thick. I am flushed expense, while at the same time, it leaves the skin soit and delicate to the touch. To uproot the beard outh, Thomas R. Curtis, Carmel, Arey & Nourse, entirely, it must be applied warm. It will also destroy hair when found to encroach upon the forehead and will rid one of many little annoyances in the shape of furze, or straggling or superfluous locks. In fact it is a valuable appendage to the toilet, and will be found such by those who may have occasion for its use. Purchasers can see the preparation tried if required. Il per bottle.

PAGE'S VEGETABLE SYRUP FOR FEMALES, ENCEINTE.

HE following gentlemen are the authorised Agents (or selling the above mentioned valuable medicine,—a medicine worthy the confidence of the public, and should be used by every female about to become a mother. It is invaluable in relieving the pains of Lying-in women, as has been proved by hundreds of ladies who have used it, and by many physicians who prescribe it in their practice. There is nothing deleterious in its composition, and the most delicate female in any condition may take it with perfect safety. The price of it in nearly all cases where used is more than saved by the mother getting up, and recovering her strength so as to be able to dismiss her nurse one to two weeks sooner than in ordinary cases. All persons wishing for further information respecting it, are referred to a pamphlet of a dozen or more pages accompanying the medicine (which may be had gratis of any agent,) containing some general remarks upon the subject proper and important to be read by all females, also several letters from physicians who have prescribed it, and from other gentlemen whose wives have used

NO EXCUSE FOR A BALD HEAD. Since the important discovery of Dr JAYNE'S HAIR TONIC, every. one may, if they choose, preserve their hair from falling off, or if already hald, may, with certainty, have their hur restored again by a faithful and persevering application of this valuable HAIR TONIC.

Please to read without prejudice the following com-munication, which, in addition to hundreds of others equally respectable, should remove the doubts of every reasonable person of the uniform and singular efficacy of JAYNE'S HAIR TONIC. MAMILTON, Feb. 15, 1840.

Dr. D. Javne .-- Dear Sir: I cannot say my hair is restored, but I can say that it appears to be in as rapid a process of restoration as could reasonably be expected. I had not finished the first bottle, before a decided change was manifest over the bald part of the head to which it was applied. A new growth of fine glossy hair, much like that of an infant, appeared, and has continued to increase, and I have had it cut two or three times. I have recently commenced upon the third bottle, but have been a good deal irregular in the use of the Tonic from the first, and from this cause I apprehend the effect is at present less than it otherwise would have becu.
